

## I might

iann dior

Dior shades they cover my eyes  
I'm with a shawty with a mouth full of lies  
I do this to myself every time

I said I won't but (I'm lit and I might)

Hit your phone up girl I know it's 3 am  
Baby bring a friend (I'm lit and I might)  
Pour one up, and then I roll a three again  
Just to tweak again (I'm lit and I might)

I don't why I do it

Around the ones that do it wrong  
Show me you're not loyal

Now here we go again  
Girl stop it

You're not making sense

Don't hit my line

You wanna link up, oh we do this every time  
A different story bout some nigga in yo life

I don't wanna hear it

The wrong decision you make again

Here we go again why?  
Always seem to cry lies

Dior shades they cover my eyes  
I'm with a shawty with a mouth full of lies  
I do this to myself every time

I said I won't but (I'm lit and I might)

Hit your phone up girl I know it's 3 am  
Baby bring a friend (I'm lit and I might)  
Pour one up, and then I roll a three again  
Just to tweak again (I'm lit and I might)
