You help me pass time
Chase your love for millennium
I won't waste much time
But you still do it anyways
You help me pass time
Chase your love for millennium
I won't waste much time
But you still do it anyways

Love or hate, this feel like a mistake
I'ma break you off
Fuck a break, we fix it with a little conversation
'Cause you say that you want me and I want you too
Am I a fool, I don't know
But let's just go with the flow
'Cause who knows
A few months from now I'll be onto newer things
And I want the wedding rings
'Cause every girl I trust let me down
Now it's hard for me to give a fuck
True shit
You've been playing with me and you knew this
I'm a fool already give me my dose
When I'm with you all that's left is one toast
So pour me up
'Cause when I'm sober all I do is give a fuck
Is you with me?
Or against me, one love
Is you with me?
Or against me what's up
'Cause I feel stuck
Millennium love

You help me pass time
Chase your love for millennium
I won't waste much time
But you still do it anyways
You make me a lie
Cause what's life without love
Promise me your tries
Broke it up like some bud
You help me pass time
Chase your love for millennium
I won't waste much time
But you still do it anyways

Now I smoke a lot
Now I think too much
What the fuck am I doing
Now I try too hard
Now I'm in the dark
Oh, I think that I'ma lose it

You help me pass time
Chase your love for millennium
I won't waste much time
But you still do it anyways

You help me pass time
Chase your love for millennium
I won't waste much time
But you still do it anyways

You help me pass time
I won't waste much time
But you still do it anyways
Chase your love for millennium
