

Monsters

iann dior

Lately you've been on my mind like all the time
Can't seem to get you out my head
Said it like a hundred times, I'm sad inside
Feeling like there's nothing left
Why you gotta waste my time, I wanna shine
Put me in the shadows instead
I hate it, why you gotta lie, stay by my side
To get away from all this mess

I've been running from the monsters in my head
Ain't nobody here to save me from my death
I'm feeling alone
I'm feeling like we've grown apart
Don't you know that you're the monster in my head
Can't forgive you, all the things that you did
Thinking 'bout you when there's somebody else, you're bad for my health
No running from the hell that you bring, you suffocate me

Thinking that I'm better witchu
I ain't better witchu
No longer got these sober thoughts in my head
It never seems to finish witchu
The hell we went through
Nobody here to save me from my death

'Cause ain't nobody here to save me
I think I'm going crazy
And girl you know I'm better than him, you played me again
The reason why I sin and I sin, we've come to an end
No, you cannot change me
And no, you can't replace me
I've been dancing with the devil all along
Let me down and you'll forever be what's wrong

Lately you've been on my mind like all the time
Can't seem to get you out my head
Said it like a hundred times, I'm sad inside
Feeling like there's nothing left
Why you gotta waste my time, I wanna shine
Put me in the shadows instead
I hate it, why you gotta lie, stay by my side
To get away from all this mess

I've been running from the monsters in my head
Ain't nobody here to save me from my death
I'm feeling alone
I'm feeling like we've grown apart
Don't you know that you're the monster in my head
Can't forgive you, all the things that you did
Thinking 'bout you when there's somebody else, you're bad for my health
No running from the hell that you bring, you suffocate me
