Walk with me  
The same you talk to me  
I need to know, if it's you  
That is wrong with me

And my whip don't lag  
I can take her from a zero to a ten  
Lit up in the face when she see me walkin'  
She thought we left earth when I put her in the starship  
I been peepin' what you bringin'  
Know you got it  
Show me what you do best go ahead and pop it  
The way she move got that look in her eyes  
Send her on the way, another callin I got options  
(Baby I got options)

Head in the clouds  
Got me floatin' to the ceiling  
I be flying all around  
Living life without a limit

Ima home run hitter  
Pop star but I'll still hit you with the flow switch  
Gucci on my garments  
Feel like I'm an astronaut  
Floatin' with the orbit  
Eliantte certified, around my neck a weigh brick

Walk with me  
The same you talk to me  
I need to know, if it's you  
That is wrong with me

And my whip don't lag

A zero to a ten  
Lit up in the face when she see me walkin'  
She thought we left earth when I put her in the starship
