

# This World Is Sick

IC3PEAK

This world is sick, my heart feels it  
This world is dark, my heart lights up  
This world is vice, my heart was iced  
This world is blur, my heart stays pure  
This world is sick, my heart feels it  
This world is dark, my heart lights up  
This world is vice, my heart was iced  
This world is blur, my heart stays pure

I don't see, I don't see  
Deep inside you, I don't see  
I don't see, I don't see  
Deep inside you, I don't see  
I don't see, I don't see  
Deep inside you, I don't see  
I don't see, I don't see  
Deep inside you, I don't see

Get down on your knees  
This is the last kiss  
Crawl down to abyss  
You have to make this  
Get down on your knees  
This is the last kiss  
Crawl down to abyss  
You have to make this

This world is sick, my heart feels it  
This world is dark, my heart lights up  
This world is vice, my heart was iced  
This world is blur, my heart stays pure  
This world is sick, my heart feels it  
This world is dark, my heart lights up  
This world is vice, my heart was iced  
This world is blur, my heart stays pure
