Me and my team, we gleam with the sun
In a beam with the young, rhyme on the drum
Let me show you how to make cream out of crumb
Get it out the mud, sweat, tears, and blood
When you shoot your shot, make sure it ain't a dud
Don't shoot a slug inside a thug
That'll get your ass scratched out like a rug
They finna pull the plug, don't call his phone
Homie, what you doing, boy?
Don't you see that drone?
Don't you see them cameras posted all around your home?

Twilight Zone, home with the highlights on

West Coast, nigga, it's what I condone
They call me black, but I'm really, really Capitone
Don't give a fuck what the cops is on

Before she started, my socks was on
She blew them off when she turned the rocket on, nigga

I don't play with these motherfucking megahertz
All work and no play, come and get this work

Always pursuing that
Dog really move the cat (Woof)
You can't ruin that
Vacations don't tempt me
'Cause I'm living up in your fucking mind, bitch
Rent free, and it's empty
Full of cobwebs
Now I see why your motherfucking eyes red
I work a double shift, plus OT
Then I smoke an oozie
Where the ho's be?
I'm the youngest son of hozie
You know the game, pimp (Yup)

Yo bitch chose me
But I don't want her (Nah)
You can have her back
Use a sperm donor

Nat Turner will make you a great learner
The back burner
It's where you cook (Yeah)
Most of y'all will never know what it took

All work and no play, come and get this work
I don't play with these motherfucking megahertz
All work and no play, come and get this work
I don't play with these motherfucking megahertz
Get it out the mud, pull it out the dirt
A nigga ain't playing when I'm giving you this work
Get it out the mud, pull it out the dirt
A nigga ain't playing when I'm giving you this work
