

Especially You

Ice Cube

Okay, I need everybody on the dance floor
Right about now
Right about now
Yeah

Shake that shit, let her twerk
All she wanna do is put in work
All she wanna do is get off of work
Hit the dance floor and go berserk
Lookin' like dinner and dessert
Better back up, nigga, don't get hurt
You ain't tryna hurt what's under that skirt
Cube come through, watch you get murked
Straight from the dirt
Put the world on alert
If you're scared, go to church
I'ma kill it first
You know this motherfuckin' verse
It's gon' leave in a hearse
Bitch, obey your thirst
Then hand O'Shea your purse
You fuckin' with Catholic curve
We'll show your ass the universe

Yeah, I said
I need everybody on the dance floor
Especially you

Look at that freak bitch startin' to freak
Look at that geek nigga startin' to geek
Freak wanna freak eight days a week
Saw that ass from across the street
Busted you best I can
Fucked around and hit a pedestrian
Picked him up after the crash
Nigga asked me, "Did you see that ass?"
Fuckin' that shit up, bitch, I get lit up
Hands up, this is a stick-up
Dust get kicked up, then I pick a trick up
See that dick up, bitch get the hiccups
Me and my niggas, we like pickups
Those fake, don't try to trick us
These things are natural
Ten times better than silicone

Yeah, I need asses wigglin' (Yup)
And titties jigglin' (Yup)
Especially you

Shake that shit, let her twerk
All she wanna do is put in work
All she wanna do is get off of work
Hit the dance floor and go berserk

Better back up, nigga, don't get hurt
