Why is the internet not working?  
Why are you not working?  
Why is the internet not working?  
The same reason you're not working  
Did you turn off the internet?  
Maybe

Create a clone through this iPhone  
It's the perfect device to get spied on  
Swipe up, swipe down, pipe down  
Type it in, never ever write it down  
Knowing, it's mind controlling  
First you start scrolling, then you start trolling  
Yeah, what you know about a prison?  
Ain't no rhythm in this algorithm, no  
It's about the vision  
It's about to be a head on collision  
Lost my religion  
Motherfuckers gotta google where God at  
I despise that  
He under my hat  
He under your hat  
He in your heart  
I bust a rhyme that's better than Mozart  
What I look like? Asking Chat GPT  
What was it like growing up in the CPT?

They hit me with that freedumb  
It don't cost you a penny to be dumb  
They hit me with that freedumb  
What's the reason? That shit is treason

AI is learning to escape human control  
AI is in fact learning to escape human control  
Human control, human control

L.A. to the bay back in '88 (Yeah)  
I was there, nigga  
Fuck what your computer say  
You'd rather ask a nerve like Zuckerberg  
Go ahead homie, go and join the herd  
You's a blue light zombie (Zombie)  
Become an unhealthy, selfish as a selfie  
Go ahead, ask Open AI  
When you know that they lie  
About the 4th of July  
Information artificial, blow the whistle  
You know that we with you  
Go get the pistol  
Shoot the fat screen first then the laptop  
Kill your iPhone then smoke your Xbox  
And when they call SWAT here come the robots  
Don't matter if the motherfucking doors locked  
They shooting in the dark  
Ripping us apart  
Motherfuckers only mad 'cause we too smart

They hit me with that freedumb  
It don't cost you a penny to be dumb  
They hit us with the freedumb  
What's the reason? That shit is treason

I think the most important thing to understand about AI is  
That AI is not a tool  
It is an agent  
What's the reason? That shit is treason
