

# We Be Ballin'

Ice Cube

I love this game, yeah  
Haha, haha, haha!  
Yeah!

We be balling  
Everybody likes sort of plays we calling  
Your team falling  
We ain't stalling  
We just slamming and jamming  
Like it ain't nothing wrong

(Booya!) It's back  
The NBA's where it's at  
We the max  
VIP's, watching Shaq stacking up the numbers  
Back in the promise stunnah  
You ought a check him smarter or a little harder  
Now we can fall on land, air and water  
Catch a [?] then you think she ought a  
You have to order the smarter  
Any team like that  
Jordan me and Shaq  
A dream team pack  
Watch my man Allen and I, take it to the rim!  
Two minutes left and we winning by ten  
We proudly win, we all [?] up  
(Boo!) You in my house, you get no love

We be balling  
Everybody likes sort of plays we calling  
Your team falling  
We ain't stalling  
We just slamming and jamming  
Like it ain't nothing wrong  
(Bring it) Get your ball on!

Nothing you can say, nothing you can do  
We be balling you, we be balling you  
No one to defeat, you'll see what we can do  
We be balling you, we be balling you

Baby like Rolls Royce  
Rashaun for short  
Keep my flow  
Like low punks  
Nice and swift  
Priceless gift  
The part of we hitting  
Bigger your bruise  
Better field no excuses  
Say play at you lose  
Pay my dues  
Ice Cube is with me  
We quite nifty  
Ballers making history  
By being quick as 50  
You ballers, with daisy champ, baby

What's your thing  
They don't go whoever, whenever  
Emitten' angst (Yeah, yeah!)

I been balling  
Shaq calling  
There's another game played  
LIVE 98' for the fame  
Ice Cube, do these kids wanna be him  
They die and trade for, [?] Colosseum  
We ain't bet you, kill balling  
Forward thrust, crossover left-right  
Carved in the dust (What!)  
Haha, haha, what! (What!)

We be balling  
Everybody likes sort of plays we calling  
Your team falling  
We ain't stalling  
We just slamming and jamming  
Like it ain't nothing wrong  
Get your ball on!

Nothing you can say, nothing you can do  
We be balling you, we be balling you  
No one to defeat, you'll see what we can do  
We be balling you, we be balling you

I'm MVP  
So what's up now?  
The number two team  
Just touchdown  
Watch me as I can  
I put myself over to the floor  
And not going in for the score  
It's pulling off my flow  
They start to push and shove  
The skills us possess  
Must come from up above  
Look, for everybody waiting on us  
And scrub, for everybody hating on us  
Their waiting on us  
A day only visiting  
And their trying to come to my house, and when  
I see you watching me, but I'm the flybird  
And I can take you to the home, like the doctor (Watch)

As I see her getting home  
Does she know  
That I'm a superstar?  
Don't they know who we are  
We going all the way, baby  
We going win this war

Nothing you can say, nothing you can do  
We be balling you, we be balling you  
No one to defeat, you'll see what we can do  
We be balling you, we be balling you  
So hard to defeat, we love just to compete  
We be balling you, we be balling you  
Hate to make you plead, we'll bring you to your knees  
We be balling you, we be balling you

Shake them off, shake them off, take them off  
For the real, for the real, we rock them in  
Shake them off, shake them off, take them off  
For the real, for the real, we rock them in

We be balling, we be balling...
