

Laika

Ice MC

I am dog
My name is Laika
My ambition is to be like a future astronauts
And to see more
If they dance on drive around the cars

Russia got me
They pull me into space
Can you imagine if you saw my little hairy face
They say I came back but it's not sure
I am still here in space let me show you

Help me (3x)

I think you are all wrong
Why did you leave me?
I am lost in space, you think it so easy?
I am a small dog and you are human beings
I wanna come back home
You know what it means

Help me (3x)
