

A Rash Decision

Ice Nine Kills

It's underneath our skin, no medicine can stop the bleeding
Far from all we know, we're caught without a prayer
It's underneath our flesh and it won't rest 'til we stop breathing
Far from all we know, there's a fever in the air
This is a fever now!
This is a fever!

We came here today to get away
But now our perfect plans are all fading quickly
I cannot deny it's do or die
Infection grows imminently

Bang! Bang! Bang! is the only shot for me
Bang! Bang! Bang! to contain atrocity

A fever's in the air
Who will be spared?!

Time stands still, contamination's calling
And now our skin is crawling
Is it a crime to kill if we're only sinking deeper
And love can't stop the fever?

Face to face with fate, but it's too late
And now my soulmate's soul is fading quickly

Bang! Bang! Bang! is the only shot for me
Bang! Bang! Bang! to contain atrocity

It's underneath our skin, no medicine can stop the bleeding
Far from all we know, we're caught without a prayer
(This is a fever!)

Contagion's at our heels, but is it real, or am I dreaming?
Far from all we know, there's a fever in the air

Time stands still, contamination's calling
And now our skin is crawling
Is it a crime to kill if we're only sinking deeper
And love can't stop the fever?
Can't stop the fever

The killer found the cure, but cannot be forgiven
Her blood sheds as it spreads, another Rash Decision

I won't be forgiven
For this Rash Decision

Soaked in sin and caught without a prayer
Still, there's a fever in the air

Time stands still, contamination's calling
And now our skin is crawling
Is it a crime to kill if we're only sinking deeper
And love can't stop the fever?
Can't stop the fever

The only peace is a place inside my mind

The only peace is the past, rewind
'Cause all was well once upon a time
The only peace is a place inside my mind
The only place where I could never leave her
And we defeat the fever

But the truth hits like a truck all bottled up
So hard to swallow now that it spreads so quickly...

Bang! Bang! Bang! is the only shot for me
Bang! Bang! Bang! to contain atrocity
