

## The Shower Scene

Ice Nine Kills

Come on in, the weather's dreadful  
We always have a room to spare  
Don't mind mother, she is not well  
The doctors say she's not all there

She's crazy, I must confess  
I'm so sick of cleaning up her mess...

I hope saying goodnight  
Doesn't mean saying goodbye  
Now under the pressure, we're drowning together  
Going down the drain tonight  
The drain tonight

Come on back, I'll fix you something  
But careful not to cross the line  
'Cause she and I are sure of one thing:  
We all go a little mad sometimes...

She's crazy, I must confess  
"Listen to Mother!"  
It's always me cleaning up her mess...

I hope saying goodnight  
Doesn't mean saying goodbye  
Now under the pressure, we're drowning together  
Going down the drain tonight  
The drain tonight  
The drain tonight

I can't come clean  
You got caught up in between  
I can't come clean  
You can't escape The Shower Scene!  
Can't escape The Shower Scene!  
The Shower Scene!

It's always me cleaning up her mess...

I hope saying goodnight doesn't mean saying goodbye  
Doesn't mean saying goodbye  
Now under the pressure, we're drowning together  
Going down the drain tonight  
The drain tonight  
The drain tonight  
Down the drain tonight
