

# JUNE

Ice Prince

Wanna go  
Wanna go on a vacation  
Wanna get vibe on  
You know  
I wanna go and get under the sun

It was a long December  
January I remember  
Feeling how the February fever got me down  
And in March I was craving  
Summer misbehaving  
But the winter air was just so set on sticking around

And the April babies  
Oh, they get so crazy  
You know they living for the one night  
Knowing that it's alright  
Oh, they're gonna get away in...

JUNE  
You can't come too soon  
You can't come too soon  
You can't come too soon  
JUNE  
You can't come too soon (wanna go)  
You can't come too soon, too soon, too soon (wanna go)  
Soon I'll get my shit together

Wanna go  
Wanna go on a vacation  
Wanna get vibe on  
You know  
I wanna go and get under the sun

Wanna go  
Wanna go on a vacation  
Where everybody's from  
You know  
I gotta go and get under the sun

I ain't going nowhere baby  
I ain't going nowhere baby until you show me  
I ain't going nowhere baby  
I ain't going nowhere baby until you show me

I been under the weather  
Since you left in the winter  
Everybody told me you were nowhere to be found  
And in March I was dreaming  
That we were oversleeping  
Right beside the ocean where the sun was blazing down

And the April babies  
Oh, they get so crazy  
You know they living for the one night  
Knowing that it's alright  
Oh, they're gonna get away in...

JUNE

You can't come too soon  
You can't come too soon

Let's go outside, I can't wait to be outside in...

JUNE

Wanna go  
Wanna go on a vacation  
Wanna get vibe on  
You know  
I wanna go and get under the sun

Wanna go  
Wanna go on a vacation  
Where everybody's from  
You know  
I gotta go and get under the sun

I swear you make me feel like a Don  
Big girl, shake your big bum  
I like the way your body transform  
Everytime we dance under the sun

I swear you make me the shadow of it  
Bad girl, curvy body  
Let's go outside baby, I can't wait to be outside in
