Say no time for shit
Make it stick for stick
Shit took the game down
Baby bit for bit
Dember shot leave us bar
Click for click
Shorthy's got it on the phone
Is micro chip for chip
Bounce along
Heard you came with your friends and a thousand more on the dancing floor
Body hands and all
Stand upon the wall
Shorthy looking like she fancy more
And when am done
She tell me thanks and all
Me a handsome boy
She bought shot for me blast the wall
Bullets thanks and all
Then she call me a conquerer
Cause jaga conquer all
Thinking that butty mean a blunder all
Listen well me na kiss and tell
Freak all night with a Christian girl
Yeah I promise her I be her wishing well
She say boy you ever leave me
I go skits and tell hey hun

She can't resist the feel
And this is real
I exist to chill
Some real plight for shit
I persist until
Resist at will
This is how existence feeling check it

Shorthy me no kiss and tell
Shorthy me no kiss and tell
I'm all right
Shorthy me no kiss and tell
Shorthy me no kiss and tell
