Ice Prince

Somebody lied, they tell me say the road to success man was easy and smooth man

Somebody lied, they tell me say everybody for Lagos de chop good food man

Somebody lied, they tell me say its all good

Now I realize say somebody lied

No be everything wey de glitter be gold

They made it sound cool when the story was told

Once upon a time, I was chilling in my street

Then I got a call and they tell me say Lagos is the shit

Walked out of school, said I must go there

If na trek them de trek, me I no care

Some people sit me down, but me I no care

They na Lagos them de blow, I go end there

I took the night bus, cause me I had hope

And back home I was sad me and my dad broke

If na hunger we go fight, I go try cope

Me I go wash them eye till them go cry soap

Yeah, omo Lagos is calling

I hear say them get money, omo no dulling

Even if na mami water de, I go fall in

Cause where me I de, delay is not something

Somebody lied, they tell me say since '99 light go plenty

Somebody lied, they tell me say my people belle them no go empty

Somebody lied, them tell me say its all good, now I realise say somebody lied

Somebody lied o, somebody lied

They me '99 that everything go nice

The cake is very big and omo you can have a bite

You put me in the office and the I'll do you right

Omo you won't have to rhyme everyday and night

And so we vote them

Them no promote us

We no de facebook

But them de poke us

We try to hang in there

But them de choke us

Them de build house for sky

And we de live for low cost

Everyday for news there's nothing new

Oil rig stations still we just de queue

They say we get money but man its just a few

Omo boys still de feed on rice with no stew

And after school sef, omo na house work

And you go go six feet if your mouth talk

Up till now some people still de sleep for outdoor

You know the rest I don't need to talk them some more

Somebody lied, they tell me say you no go blow if you no be Yoruba man

Somebody lied, they tell me say you come from Jos and you no go go far man

Somebody lied, they tell me say my guy you no fit compete man

Somebody lied oh

Somebody lied

Are you from J-Town, omo forget rap  
You ain't got a chance out there with your dead crap  
You don't even dress fly to begin with  
You far from the best you ain't gon start with your English  
You say you spit well  
Oh please nigga  
In Lagos you can't compete with the gees nigga  
Your bank account's gotta have a lot of six figures  
And when you're out there you gon be a diss figure  
I ain't trying to diss you, its only true saying  
This no be mouth wash, I no be toothpaste  
You can't fly there's no gucci in your suitcase  
You wan stay Lagos, omo in whose place  
Celebrity ko, celebrity ni  
You wey no fit pay your electricity fee  
Better go school before you go become tout  
Cause guy you no go blow even with bomb for your dumb mouth
