

# Want It All

Ice Prince

Put it on me like you want it all  
Put it on me like you want it all  
Put it on me like you want it all  
Put it on me like you want it all

Let me see you move like you want it all  
Like you want it all  
I like the way you put it on me  
You see I like the way you put it on me  
Let me see you move like you want it all  
Like you want it all  
I like the way you put it on me  
You see your body is callin' me

My girl all you gotta do is call  
All you gotta do is call  
I know that she want it  
Late at night she callin'  
No man can tell you affi do  
No gyal can tell you affi do  
I been all around the world  
And they ain't got nothin' on you  
Late nights, when you upset  
You give me that, "are u up text?"  
Pretty gyal what you feel like?  
Brown skin, what she like wit it the reply  
I know you wanna come 'round for the monster  
Big bum, spin around helicopter  
I told her don't mix the brown with the vodka  
Then I give her rounds like a boxer

Bring her home and relieve stress  
Slow jams, Keith Sweat  
Deeps breaths, deep sex  
Pussy got a nigga locked, free Krept  
Badman, don-danana  
I know she wanna tek dagga-dagga  
Grabbin' on a, stamina-na  
Ride it, the banana-na  
With a bad bitch, inna my ride  
She like girls, she likes guys  
Havin' with sex with a bi chick in the whip  
That's what I call a drive-by  
She freaky, pussy tight-tight  
Them a pree me, whatcha life like?  
Them hatin' ass niggas won't like this  
This is Krept Konan, Ice Prince

Let me see you move like you want it all  
Like you want it all  
I like the way you put it on me  
You see I like the way you put it on me  
Let me see you move like you want it all  
Like you want it all  
I like the way you put it on me  
You see your body is callin' me

What the man did, done did for man did  
And all the boy dem did for what the man did  
It's almost two o'clock, mandem a spend dirty  
Woke up the next night dizzy at like 10:30  
With a strange face, lying next to me  
She got that bang bang body on that ecstasy  
I never seen nobody like that too  
So fresh like she never seen stress  
Let's keep it low-key baby tell me who do you know  
She turned around and whispered, "you da best papi chulo"  
But I could call a Uber if you're not feelin' the vibe  
I don't mind, it's gonna take him some time  
Quick, rematch

Let me see you move like you want it all  
Like you want it all  
I like the way you put it on me  
You see I like the way you put it on me  
Let me see you move like you want it all  
Like you want it all  
I like the way you put it on me  
You see your body is callin' me
