

## Catch It

Iceage

Reeling in the line  
Fully saccharine  
All these stagnant words which I confide  
Perish in the night  
Anyway so  
Here we go again  
Always faintly preying  
Did I note a tremble on your arm  
Thereupon alarmed  
Just give in

Make me real  
You reel in then you catch it  
Catch it, catch it, catch it, catch it, catch it  
Come make me real  
You reel in then you catch it  
Catch it, catch it, catch it, catch it

Time moves forward quickly  
Moves in twenty-four  
Hour segments racing for the soul  
To grab chokehold  
Of the minute hands  
Left without a trace  
Just a fleeting face  
Flicker as a figment once before my eyes  
Perished in the night

You want it, you want it, you want it again  
Why don't you come and ask me, I adore you my friend  
I said you need it, you need it, you need it again  
Trust me, these arbitrary thrills will never fail to transcend

Make me real  
You reel in then you catch it  
Catch it, catch it, catch it, catch it, catch it  
Come make me real  
You reel in then you catch it  
Catch it, catch it, catch it, catch it

Come make me real  
You reel in then you catch it  
Catch it, catch it, catch it, catch it, catch it  
Come make me real  
You reel in then you catch it  
Catch it, catch it, catch it, catch it

I said you want it, you want it, you want it again  
Why don't you come and touch it, I adore you, my friend  
I said you need it, you need it, you need it again  
Trust me, these arbitrary thrills, they never fail to transcend  
Make me real  
You reel in then you catch it  
Catch it  
Catch it
