

# Remember

Iceage

I know it will break out  
All that you have been given  
Feel it flower underneath your skin  
Unless you let it shiver

I keep myself within  
This long and holy light

Remember  
These days  
It stays here  
Forever

And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within

These days are marked  
It saves our lives  
All this blood that surrounds me  
Break into my veins

I keep myself within  
This long and holy light

Remember  
These days  
Forever  
It stays here

And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within  
And I keep myself within and I keep myself within
