

# You're Nothing

Iceage

Ways to protect this hollow shell  
So inhumane  
Remove yourself from patterns laid  
All through a life  
Look at yourself

That's right, you're nothing  
Feel the void grow  
You see you're nothing  
Self-set so low

We were the same  
We were the same  
Only one broke the chain  
We were the same  
We were the same  
They all go on without shame

You're nothing!  
You're nothing!  
You're nothing!  
You're nothing!

Days in return, yet no recall  
Nothing wrong just take the fall  
A rush of shame, a nervous touch  
Since you're to blame

You see, you're nothing  
Feel the void grow  
You see you're nothing  
Self-set so low

We were the same  
We were the same  
Only one broke the chain  
We were the same  
We were the same  
They all go on without shame

You're nothing!  
You're nothing!  
You're nothing!  
You're nothing!
