

# Plagues of Babylon

Iced Earth

We lie in wait  
Times is drawing near  
Earth crises all too clear  
The human virus starting to awake  
So we must manipulate

We can't accept this human threat  
The power structure is intact  
As gods on earth we will forsake  
We must release the plague!

So if you're asking yourself, why?  
Your eyes are blind to the raging storm  
Will they cleanse the earth of humanity?  
Unleash the plague of Babylon?

Compliance  
Submission  
Cowards  
Led astray  
Traitors  
Liars  
Deceivers  
Have their way

"And this shall be the plague with which  
The gods will strike all the people  
That wage war against them,  
Their flesh will rot while  
They are standing on their feet,  
Their eyes will rot in their sockets,  
And their tongues will rot in their mouths."

There's no escape  
They feed from our hands  
Our minions plot  
As they make their stand  
As gods on earth  
We have foreseen  
We'll make the peasants bleed!

So if you're asking yourself, why?  
Your eyes are blind to the raging storm  
Will they cleanse the earth of humanity?  
Unleash the plague of Babylon?

So if you're asking yourself, why?  
Your eyes are blind to the raging storm  
Will they cleanse the earth of humanity?  
Unleash the plague of Babylon?
