

I Want You

IceJFFish

Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you

I treat you like my lover
Put your breadstick in butter
I'll love you like my brother
I'll put you over others
I'll treat you like my cousin
I'll love you no discussion
I'll treat you like my muffin
It's either you or nothing

Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you

Baby girl let me go and show you something real
Baby girl I love the way you smile out your grill
You got a second girl just tell me how you feel

When we hooked up we have no reason
Baby girl, your [?] might be other seasons
Baby girl trust me you got me I'm never leaving
You really got me thinking that I'm dreaming
For you and your love you know that I been fiendin'
Baby girl, with you, I'll never keep a secret
Babe I love your attitude, treat you good with gratitude
Oh that's good ya that will do
I'll do anything just for you

Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you

I treat you like my lover
Put your breadstick in butter
I'll love you like my brother
I'll put you over others
I'll treat you like my cousin
I'll love you no discussion
I'll treat you like my muffin
It's either you or nothing

Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you want you
Baby, baby, baby you know I want you
