Rollie full of ice, gun with the scope
Light a nigga up like the gun full of dope
Hang you by your mouth turn yo toungue into rope

Watch got aids I'm illest nigga out
Clips plays spades they'll deal a nigga out...
Catch him outside had to kill him in his house
Treat your head like a pint had to seal a nigga mouth...
Earrings twerkin chain do the nae nae
Bowles of jamaica, range full of reggae...
Brand new audi big body aa
For playing kid games leave your brains on a playskate

Along came a power
First was respect
All white ice hanging on my neck
Been getting money bitch I had a check
Off set rucci's thang painted on the vett...
We're was y'all when I shooting out of town...
Touchdown and ended up getting turned around...
Shoot him down if he moving out of bounds...
And I ain't sending work unless I shoot it out of town

Bag so big got to pull with a horse
Choppa start singing like the bullet got a voice...
Shoot you in your head
Turn your hoodie into a coat
Got a baby ak I can put it in my coat...
Take a nigga bitch made her put it in her throat...
She love to surfboard so I put her on a boat
Sending work out had to put it on a boat...
Broke the microwave twice
So I cooked it on the stove...
Niggas sneak dissing what's the nerves of these lames
Call them crack heads put a bird on his brain
I was 14 on the curb with the caine
Now I'm getting easy money selling words, getting paid

Along came a power
First was respect
All white ice hanging on my neck,
Been getting money bitch I had a check
Off set rucci's thang painted on the vett...
We're was y'all when I shooting out of town...
Touchdown and ended up getting turned around...
Shoot him down if he moving out of bounds...
And I ain't sending work unless I shoot it out of town

Money so good I can count it by the scale
Work so cheap like I found it on a sale
Front door service like u got it in the mail
All white fish scale like I got it out a whale
It's all on deck shit I got it on the shelf
Leave a nigga neck on the bottom of the steps
Long sleeve caddy like I'm riding in a stretch
Riding rims in the winter so I'm sliding in the vett...
Started from the bottom now I'm climbing to the top

Fuck love now I can find it at the top
Were was y'all hoes when I was grinding on the block
Now I got the state lock from the bottom to the top

Along came a power
First was respect
All white ice hanging on my neck
Been getting money bitch I had a check
Off set rucci's thang painted on the vett...
We're was y'all when I shooting out of town...
Touchdown and ended up getting turned around...
Shoot him down if he moving out of bounds...
And I ain't sending work unless I shoot it out of town
