Skrirt, skrirt, skrirt, hmm

I done ducked them rats so long and copped my weight 'cause it's hard to find

I done made these niggas cop the biggest chains that they can find
Keep the Narcan in the trap, gotta pump they veins if they like dying
Exotic 'bows too fire, gotta roll that fire that smell like pine, huh
In the Nap with Milly 'nem, just popped a Tesla, now I'm geeked
Turned a dream into reality, that's why I'm laughing in my sleep
Cooked the Vezzo in the lab and now my hands, it smell like bleach
Rather go to trial than cop no plea, we just cop bags and Louis V (Huh)
Got thirty-rounds and hundred-rounds, we come to town, more bands
Do a turn-around and a turn-around and a turn-around, slow dance
I'm a boss for real, it take a loss for a real, but it ain't no chance
Make a ghetto bitch hold hands, I don't dance, I just throw bands

Add me up, it's like an M on me, bae, I can't tuck it (Woah)

Done ran the city so damn long and I ain't out of breath still (Swerve)

Really thought I was past prime, I was flatline

I got 500K right now on the money line, got me dapping up Cade at halftime (Damn)

Been around the world so many times, a replacement only thing I can't find

Asking if I still got it, that's like asking Vezzo do he still have pints?

Stupid, yeah, I'm worth something, boy (Let's go, let's go)

Fuck you talking 'bout? I'm worth something (Boy, ayy)
