Look at my sauce
Not following the hype, we pose as we feel
How we do all day, I'll show it all
Spreading my name, killin' it on the verse
Swallowing me, on stage it's live or die

Let me tell you little somethin' (Somethin')
Now we gotta make it pumpin' (Pump, pump, pump, pump, yeah)
I don't tremble on stage
Let's roll on and on (I, I, I-I, I)

Hip but not obvious
Different from those acting cold, I'ma boss
Keep it, what do you want? Ride, ride up
Top, top without descent, the star I made (I-I)
Not zipped up obviously
Different from those acting expensive, demigod
Half and half
Maybe I'm a demigod, God, God, God

Demigod, I, I, demigod, I, I

In a mixed rhythm, I'ma mix it half and half
I, I, demigod, I, I, demigod, I, I
In a mixed rhythm, I'ma mix it half and half
Ready, jump
Feel that, what's up?
Lay back, rhythm
Play that god song

Kill it, how we do?
T-M-I, better know that we still slay
Who am I? A play never seen before, I'm back
