

Ready For Combat

Icon for Hire

I'm not violent but let's play a little game
Let's pretend you'll listen to me, every word I say
You've been all up over me, yeah all up in my space
Back off, back off
Don't know why I let you walk all over me
Let you get the upper hand but not for long you see
Now you're in a position I wouldn't wanna be
Back off, back off

You can try to minimize me, but here's the truth
I've been saving all my savage up just for you

I'm ready for combat, ready for rage
Haven't you heard? Luck favours the crazy
I'll make you fight back, yeah how you like that?
And just like that I got you
Ready for combat, give me a war
Tick like a timebomb, ready to roar
Let me ignite that, yeah how you like that?
And just like that I got you
Ready for combat

Kinda fun watch you trying to escape
Long time I stayed out of it, now I instigate
Making up for lost time, I could do this all day
Back off, back off
Don't act like you haven't been asking for it
Don't act like it isn't your fault
You always provoking me, I ignored it
Now I'm gonna give you my all

You can try to minimize me, but here's the truth
I've been saving all my savage up just for you

I'm ready for combat, ready for rage
Haven't you heard? Luck favours the crazy
I'll make you fight back, yeah how you like that?
And just like that I got you
Ready for combat, give me a war
Tick like a timebomb, ready to roar
Let me ignite that, yeah how you like that?
And just like that I got you
Ready for combat

You can try to minimize me, but here's the truth
I've been saving all my savage up just for you
You can try to minimize me, but here's the truth
I've been saving all my savage up just for you
You can try to minimize me, but here's the truth
I've been saving all my savage up just for you
You can try to minimize me, but here's the truth
I've been saving all my savage up just for you

I'm ready for combat, ready for rage
Haven't you heard? Luck favours the crazy
I'll make you fight back, yeah how you like that?
And just like that I got you

Ready for combat, give me a war
Tick like a timebomb, ready to roar
Let me ignite that, yeah how you like that?
And just like that I got you
Ready for combat
