

## You Just Died

Icon of Coil

adrenaline, my heart was pumping  
now it's crucial, blood starts to burn  
I took the bate, my hands are bleeding  
now it's too late, when shall we learn...

my eyes are tired, can't get no sleep  
it's been a wile now, let's activate  
they'll soon be here now, they're getting closer  
if I could reach it, now it's too late

we built a flagship on a lie  
we built our honor on a lie  
we built our pride on a lie  
we built this world on a lie  
we built a flagship on a lie  
we built our honor on a lie  
we built this world on a lie  
now we'll repair it on a lie  
too late.....

my eyes are tired, can't get no sleep  
it's been a wile now, let's activate  
they'll soon be here now, they're getting closer  
if I could reach it, now it's too late

adrenaline, my heart was pumping  
now it's crucial, blood starts to burn  
I took the bate, my hands are bleeding  
now it's too late, when shall we learn...

I won't expect that you understand  
but one day you have to make a choice  
the shade of red will be unsaid  
amber carvings in stone
