Follow me into the deepest, darkest of desire
Close your eyes and kiss me while we're walkin' on the wire
Follow me, we ridin'
Close your eyes, don't fight it
Follow me into the deepest, darkest of desire

Follow me into the deepest, darkest of desire
Close your eyes and kiss me while we're walkin' on the wire
Follow me, we ridin'
Close your eyes, don't fight it
Follow me into the deepest, darkest of desire
Follow me into the deepest, darkest of desire
Close your eyes and kiss me while we're walkin' on the wire
Follow me, we ridin'
Close your eyes, don't fight it
Follow me into the deepest, darkest of desire

So we run
Run 'til we see the light
Hold me down
Yeah, I'll make you feel tonight

Follow me into the deepest, darkest of desire
Close your eyes and kiss me while we're walkin' on the wire
Follow me, we ridin'
Close your eyes, don't fight it
Follow me into the deepest, darkest of desire

Follow me into the deepest, darkest of desire
Close your eyes and kiss me while we're walkin' on the wire
Follow me, we ridin'
Close your eyes, don't fight it
Follow me into the deepest, darkest of desire
Me into the, -to the, -to the, dark-dark- of desire
Eyes and kiss me, kiss me while we're walkin' on the wire
Follow me-me, we ridin'
Follow me-me, we ridin'
Follow me into the deepest, darkest of desire

I need you alone, I need you alone, I need you
I need you alone
I need you alone, I need you alone, I need you
Follow me into the deepest, darkest of desire

Follow me into the deepest, darkest of desire
Close your eyes and kiss me while we're walkin' on the wire
Follow me, we ridin'
Close your eyes, don't fight it
Follow me into the deepest, darkest of desire

Follow me into the deepest, darkest of desire
