Hey, gimme a beat

I, I used to run faster than a car
Until I fell down and broke my heart
And you, you run over me like a piece of garbage
And you never look back
Hey, pick it up

Tu tu du tu du du
Tu tu du tu du du
Tu tu du tu du du
I give it all up for you
You think that you're what I'm missing
I need your body, your kissing
I'm drunk but baby you're tripping

You think I'm alone with you
You think I'm alone with you
You think I'm alone, alone, alone
Well
With you, you think I'm alone with you
You think I'm alone, alone, alone
Well, F U
Well, F U
Well, F U

I used to think I was the shit of something
Until you recklessly stole it all
And you with a crown like you're the king of something
And I'm looking at you like
Hey, take it off

Tu tu du tu du du
Tu tu du tu du du
Tu tu du tu du du
I give it all up for you
You think that you're what I'm missing
I need your body, your kissing
I'm drunk but baby you're tripping

You think I'm alone with you
You think I'm alone with you
You think I'm alone, alone, alone
Well
With you, you think I'm alone with you
You think I'm alone, alone, alone
Well, F U
Well, F U
Well, F U

Round of applause to this freaking life
Still living it up tonight, gonna live it all up tonight
Round of applause to this freaking life
Still living it up tonight, gonna live it all up tonight

Well, F U
Round of applause to this freaking life

Still living it up tonight, gonna live it all up tonight
