

# Make Your Mind Up Babe

Icona Pop

You say you like me  
But still you wanna keep it casual  
You say you want me  
But it's too soon to make official

So make up your mind  
Make your mind up babe  
Got your name on my tongue  
Like an aftertaste  
And there's only so much that a heart can break  
So make up your mind  
Make your mind up babe

But for you  
I would do it all again  
But you already knew  
Baby  
That I would do it all again

Wish I could leave ya  
But I'm a sucker for a certain type of player  
'Cause I'm a keeper  
But I don't think you'll ever treat me like I treat ya

So make up your mind  
Make your mind up babe  
Got your name on my tongue  
Like an aftertaste  
And there's only so much that a heart can break  
So make up your mind  
Make your mind up babe

But for you  
I would do it all again  
But you already knew  
Baby  
That I would do it all again

But for you  
I would do it all again  
But you already knew  
Baby  
That I would do it all again  
(Baby)

But you already knew  
Baby  
That I would do it all again
