

Next Mistake

Icona Pop

I'm not your baby
But I'm falling in your arms tonight
You could be my next mistake
I've been making them for all my life
(My life, my life, my life, my life)

And when I lost myself
In a summer's blaze
I will love this smoke
Couldn't count the days
And now you're running through the field
The pureness of the rain
'Cause everything I love
And it all been flames

I'm not your baby
But I'm falling in your arms tonight
You could be my next mistake
I've been making them for all my life
(My life, my life)

I'm not your baby (not your baby)
I'm not your baby
I'm not your baby (not your baby)
I'm not your baby
(All my life)

I forget 'bout you
As the sun comes out
Nothing was for me
Another one I know
And I've been running through the field
Just to feel a rush
Just don't pretend it's real
Don't pretend it's us
'Cause

I'm not your baby
But I'm falling in your arms tonight
You could be my next mistake
I've been making them for all my life
(My life, my life, my life, my life, my life, my life, my life, my life, my life, my life)
But you could be my next mistake
Babe, you're thinking 'bout me all your life
You could be my next mistake
(My life, my life)

I'm not your baby (not your baby)
I'm not your baby
I'm not your baby (not your baby)
I'm not your baby
(All your life)
I'm not your baby (not your baby)
I'm not your baby
I'm not your baby (not your baby)
I'm not your baby

(All your life)
