Take It Back

Ida Corr

You call her worthless
A waste of your time
Weak and pathetic
Take it back

No one would want her and
No one would care
If she were to get sick
Take it back

Time and again you've been putting her down
Saying she's worthless
Take it back

Spit in her face and then just turn around
Saying she's dismissed

Take it back
Or I will make you do it
That's a fact

Take it back
Or I will come and get ya
You won't like that
So take it back

Slap in her face with your hate and your lies
Saying you're gon' quit
Take it back

Accusing her spirit, her soul and her life
Ain't nothing but bullshit
Take it back

Calling her fat, an obese in denial
A wasting of your space
Take it back

Telling her she gotta leave right now
And make the world a better place
Take it back

Take it back
Or I will make you do it
That's a fact

Take it back
Or I will come and get ya
You won't like that
So take it back

Take it back (take it back)
Take it back
Or I will make you do it
That's a fact
That's a fact
Take it back

Take it back (take it back)
Take it back
Or I will come and get ya
You won't like
You won't like that

Take it back (take it back)
Take it back
Or I will make you do it
That's a fact
That's a fact
Take it back

Take it back (take it back)
Take it back
Or I will come and get ya
You won't like
You won't like that

Take it back
Or I will make you do it
That's a fact

Take it back
Or I will come and get ya
You won't like that
So take it back
