

## More

Ida Maria

There was a time when I let down even my own grandmother  
Nowadays, I make my bed and fold my clothes like you wouldn't believe  
I'm what they call a wild child, scare your mom off on one, two, three  
Guess you never met a pirate before, so congrats and let me be  
No photos please

Never enough, I can never get enough  
There is never enough for me  
Never enough, I can never get enough  
There is never enough for me

I want more, we got to do more  
You said you want more, we got to do more  
I want more, we got to do more  
You said you want more, we got to do more

Everybody knows how the story goes  
And everybody wants to be free  
Everybody knows how the story goes  
And everybody wants to be me

Never enough party in the party  
And the party is never enough

I want more, we got to do more  
You said you want more, we got to do more  
I want more, we got to do more  
You said you want more, we got to do more

Yeah, say you want more, I can give you some (Give you some)  
Party next door if you wanna come (Wanna come)  
'Cause it's never enough party in the party hardly  
Still, you and I, we could be more  
Say you're free as a bird  
I don't know what to say about it  
Wanna see what I heard?  
Away from the herd, I wanna fly too  
Jealousy kicking in  
Let me loose, let me live, let me move  
I want more, more, more, more

I want more, we got to do more  
You said you want more, we got to do more  
I want more, we got to do more  
You said you want more, we got to do more

Never enough party in the party  
And the party is never enough  
Never enough, I can never get enough  
There is never enough for me  
Everybody knows how the story goes  
And everybody wants to be me

I want more, we got to do more  
You said you want more, we got to do more  
I want more (Never enough party in the party)  
We got to do more (And the party is never enough)

You said you want more, we got to do more

Never enough party in the party  
And the party is never enough, ow
