

Gut me like an animal
Move so close to my eyes while I try to despise you
Coco curls of your hair sweating beads from your blood flow
Cut my gut, sew me up, don't tell me you didn't know
So called love on your lips playing tricks, trying to fix it back
You always squeeze me when you know I'm mad
We're so lush in the window when the tube is black
You're tearing through my skin to bring us back

Gut me like an animal
Crooked play is our way, got a taste to adore you
Bye bye boy playing wise, looking nice, what you trying to sell
?
Twist me round, let me down, don't tell me you're doing well
Fingers laced around my waist
Love in haste, trying to make me laugh
You always squeeze me when you know I'm mad
We're so lush in the window when the tube is black
You're tearing through my skin to bring us back

We're so lush in the window when the tube is black
We're so lush in the window when the tube is black
I feel safe in my body
We're so lush in the window when the tube is black
I wrap my legs around me
We're so lush in the window when the tube is black
You tell it like you're lonely
We're so lush in the window when the tube is black
Cause you're too scared not to know me
