

# King Ruby

IDER

Caught out, at 23  
Eye of a lion, dancing queen  
Young mind, in the backyard  
You've always been the king of it, playing hard

I know it, you're made of it, born with it  
I know it  
I know it, you rise from it, pray on it  
I know it, you leave with no trace of it

It's the power of you  
Reign in gold, beautiful  
It's the fight in you

Wild heart, dressed in jewels  
She on a mission, don't you know Ruby rules?  
Fire up, turn it back around  
We can see you rising up above the crowd  
You're far away but we can hear you shout

I know it, I'm made of it, born with it  
I know it  
I know it, I'll rise from it, pray on it  
I know it, I'll leave with no trace of it

It's the power of you  
Reign in gold, beautiful  
It's the fight in you

Don't go easily  
Please stay with me  
We live so dangerously  
Magic inside  
You are a king of your kind  
Won't be staying behind  
(I know it)  
I know it, you're made of it, I swear on it

It's the power of you  
It's the fight in you
