

## Midland's Guilt

IDER

Always wanted to move to the city  
Always wanted out of my hometown  
Always thought it was so shitty  
Had bigger dreams, I saw bigger skies  
That'll all seem so petty  
When we're made extinct by AI  
I won't live to regret it  
But I'll probably wish I'd been at home to die  
To die  
To die

My midland's guilt caught my midland's shame  
Taught my heart respect for the place I came from  
My midland's guilt is with me all the same  
Pray I see the day I make it home to die  
To die  
To die

Always wanted to get away  
And you all heard my accent change  
I regret that I wasn't proud  
Should have put more love into our landlocked town  
Where some of us we didn't vote  
'Cause we mostly had no hope for change  
Well, I suppose, we probably thought that we would just remain  
Remain  
I hope that you'll let me remain

My midland's guilt caught my midland's shame  
Taught my heart respect for the place I came from  
My midland's guilt is with me all the same  
Pray I see the day I make it home to die  
To die  
To die
