IDER

This is where I end up  
This is where I end up  
On the bathroom  
This is where I end up  
This is where I end up  
Lying down on the bathroom  
Where I end up  
Face down on the cold tile  
Where I end up  
Body low  
This is where I end, this is where I end up  
I throw it all down and I give it all up

Love will find you in a million parts  
Coming up at the hotel bar  
Red rage he talks insane  
Screaming Jesus doesn't know my name  
Cigarette dropped from the top window  
I don't care it's the best I know  
Glass up if we don't die  
Honey we're getting out alive

This is where it takes me  
In where I'm empty  
Come take me  
See me in the best light  
Weak heart for the taking  
In the best light  
Come and turn me round  
Show me how you won't let me down

Love will find you in a million parts  
Coming up at the hotel bar  
Red rage he talks insane  
Screaming Jesus doesn't know my name  
Heaven knows of the words I throw  
But I don't care it's the best I know  
Glass up if we don't die  
Honey we're getting out alive

This is where I end up  
Where I end up  
On the bathroom  
Show me how I get up  
How do I get up  
How do I get up  
How do I get up  
Come and take me home  
And I'll show you how hard I can throw
