

Nevermind

IDER

Oh I
Oh I
Oh I
Oh I

Nevermind, nevermind
The world will swing back round in a matter of time
Nevermind, nevermind
Whoever said we were made to be two of a kind
Eat money till my body's full
Just because I want it all
I shoot high I was born this tall
Just because, Just because
So here's what I cannot see
And the world will never bother me
Don't need soul in my catastrophe
Just because, and all because

Nevermind, nevermind
The world will swing back round in the matter of time
Nevermind, nevermind
Whoever said we were made to be human kind
Let it die, let it die
Hold me runaway out like I'm ready to fly
Throw it, throw it down
Throw it over your shoulder
Are we ever gonna learn be wise
Or we just getting older

Don't care even though I could
Just because I got it good
Can't give a fuck but I know I should
Just because, Just because
Live rich while I let you bleed
I'm the only one I see
Don't need soul while I'm out to feed
Just because, and all because

Nevermind, nevermind
The world will swing back round in the matter of time
Nevermind, nevermind
Whoever said we were made to be human kind

Oh I
Oh I
Oh I
Oh I
