

# Slide

IDER

Oh, do you like what you see?  
You're trying me on again, you're trying me on  
Oh, I'm a lonely child again  
Coming down the slide again, coming down the slide

Hold on tight  
If I could  
I never understood, I never understood  
Keep you close 'til you're gone and that's never long  
That's never long

Oh, do you like what you see?  
You're trying me on again, you're trying me on  
I can climb to the top again  
Seeing you now and then, seeing you now

Oh, why'd you leave for so long again?  
What am I missing out on again?  
You have me on  
Will you say what you mean to me?  
Said you'd call me your friend again

Hold on tight  
If I could  
I never understood, I never understood  
Keep you close 'til you're gone and that's never long  
That's never long

Oh, do you like what you see?  
You're trying me on again, you're trying me on  
I'm a lonely child again  
Coming down the slide again, coming down the slide

Look at me  
Go ahead and fool me, my friend  
When you never drive me home  
Say it goes away, that I want to know what I want  
Now see we float like a stone  
Look at me  
Go ahead and fool me, my friend  
Why you never drive me home?  
Say it goes away, that I want to know what I want  
Now see we float like a stone

Hold on tight  
Hold on tight  
Hold on tight  
If I could  
I never understood, I never understood

Hold on tight  
Hold on tight  
Hold on tight  
If I could  
I never understood, I never understood
