

I used to be much more efficient
I could retain things in my head
No longer able, something's missing
I can't remember why I was there

I'm just an ordinary person
I have opposing points of view
What doesn't kill you makes you wish it
Human condition all you can do

Into the burning sun I face
Watching the world slip out in the waves
Can't you see all of this one day
Fades into nothingness
Aerospace

I used to be much less attentive
Couldn't remember words that were said
Now I am able, I am focused
Trying to make up time that we spent

Into the burning sun I face
Watching the world slip under the waves
Can't you see all of this one day
Fades into nothingness
Aero

Can't you see all of this one day
Fades into nothingness
Aerospace
