

# Widespread Devastation

Idiot Pilot

Singing the right notes  
Saying the wrong things  
Being the wisest man  
Who wears a clown's face  
It's just another phase  
Is there some other way?

You've got a strong pose  
Hold it the right length  
Let everybody know  
You're not so common-place  
It's just another phase  
Come on, you've got the strength

So don't break concentration  
It's widespread devastation

Grab onto me real tight  
We'll go the longest way  
It's not your average ride  
Unless somebody breaks  
It's just another phase  
Some days I'm wide awake

Reclusive dynamite  
It blows up in your face  
Destructive appetite  
Want to assassinate  
It's just another phase  
Baby, you're JFK

So don't you break concentration  
It's widespread devastation  
It's all around

It's widespread devastation  
There's no turning away  
There's no second chance  
This is your final take

It's widespread devastation  
Don't break concentration  
Don't break concentration

It's widespread devastation

It's widespread devastation  
Widespread devastation  
Widespread devastation
