

Drive

IDK

What's up

Yeah

Everytime I, everytime I

Everytime I, everytime I

Everytime I, everytime I

Everytime I, everytime I

For your love I take my time (every time I, every time I)

For your kiss, I risk what's mine (every time I, every time I)

I rather be with no life than without you baby

I could never doubt you lady, I really like that

No halfway, I'ma meet where you at

I rather be with no money than without you honey

Sun up sun down, Monday to Monday

I feel good, I feel blessed

Understood, no stress

Never get emotional at the wrong time

Emotions might take you for a ride

If you know how to drive, then baby drive

Left, right, ride the boat

Let me know if you a freak 'cause I gotta know

Left, right, ride the boat

Let me know if you a freak 'cause I gotta know

Reality can make you rewind

Technicality be winning every time

Feelings moving left to right (left to right, left to right)

Don't rock the boat, just row with ease

It's better when I'm overseas

Ya mind be shifting time to time

You going to have pick which side, which side

Which side, which side

I feel good, I feel blessed

Understood, no stress

Never get emotional at the wrong time

Emotions might take you for a ride

If you know how to drive, then baby drive

Left, right, ride the boat

Let me know if you a freak 'cause I gotta know

Left, right, ride the boat

Let me know if you a freak 'cause I gotta know (I feel)

Left, right, ride the boat

Let me know if you a freak 'cause I gotta know

Left, right, ride the boat

Let me know if you a freak 'cause I gotta know
