

# Gravity

IDK

Oh, something's got me so excited, baby  
A feeling I've been holding back for long  
Uh

You got me shook up, shook down  
Shook out for your loving  
All night long  
Climb on up the ladder, honey  
What I got is better than money  
All night long

They steady (I'm on), steady comparin', me too all these other niggas, it's like  
(But you want me home) Uh

Don't act like I'm average, I'm made out of magic  
I beat up the cat, put the cat in a casket  
And now we back at it (I get you what you want)  
I know you done had it, ayy-ayy-ayy  
I'm batting my average, ayy-ayy-ayy  
This shit is a hazard, you tryna live lavish  
But bitch, you a savage  
I swear to God, your cupid had a mothafuckin' Glock (Yeah)  
He aimed it at my heart but shot my mothafuckin' top (Yeah)  
Now my love stupid, fuck it, I do it

Climb on up the ladder, honey  
What I got is better than money  
All night long  
Come on up, girl, don't be late  
What I got for you won't wait  
All night long

I'm on (Ooh)  
But you want me home

Tonight's the night, girl  
I'm tryna give you that thing to make you say  
From the kitchen floor down to the fireplace  
Incense burnin', your body talkin' that shit to me  
Cancel that phone, all I'm tryna hear is your moan  
You riding topless, no panties on  
And I've been thinking 'bout this all night long  
You givin' me the fire, though

Papa comin' over to give you that raw  
Your favorite position is from the back door  
Girl, you know the drill, don't ask no questions, uh  
You already now  
Papa comin' over to give you that raw  
Your favorite position is from the back door  
Girl, you know the drill, don't ask no questions, uh  
You already now

I'm on  
But you want me alone  
I get you what you want

But you want me alone

Climb on up the ladder, honey  
What I got is better than money  
All night long  
Come on up, girl, don't be late  
What I got for you won't wait  
All night long
