Ayy

Go, defeat the odds, defeat the odds, that shit be hard
Got all the scars and trauma but he still got a pulse
He still got a voice, he work until it hurts
An angel told me, "Don't ever fall in love with results"
The grind heavy, my mind ready, I'm not trippin'
Look at my journey, it's not comfy like flyin' spirit
Nah, seriously, all these haters that I ain't heard yet
Really love me, but my success make 'em all delirious
DMV is everything, it's really my marathon
I really get praise for it, I put on like everyone
I'm lyin', not everyone, but I put on your fave
They love me, when they cold, they get hot, they might hate
Dubai in a week, Osaka today
You poppin' this week? (Huh) I got a decade
But Lauryn the greatest, I put my heart in the game
That's why these jokers think they winners, sorry, this isn't spades

'Cause I live for it, die for it
I'm willin' to fight for it and ride for it
You just gotta dive in it, your life in it, yeah, yeah
You gotta be in love with it, and fall for it
You can't put a piece in it, put all of it
You da MVP for it, and ball for it, yeah, yeah

Pick your bitch-ass up
You complainin' 'bout fallin', better put your kickstand up
They say I ain't startin', fuck it, I'm the sixth man, what?
I'm tappin' their shoulders 'til I tell 'em, "This man, duck," yeah
And it's all in my hands now
Everybody wanna be a nigga friend now
'Member when they used to tell me, "Put the pen down"
Now a nigga got bars like the pen', wow
I heard that line so many times so I'm deadin' it
I'm bleachin' up the floors so they never find no evidence
I take a little break, now they sayin' I'm irrelevant
Until I lift the trunk on they ass like a elephant
In the room, I'm a groom married to the game
Never been ashamed to say my name if they sayin', "Who the best?"
You gon' have to aim for the brain, Chief Keef, bang, bang
The confidence bulletproof, it wear a vest

'Cause I live for it, die for it
I'm willin' to fight for it and ride for it
You just gotta dive in it, your life in it, yeah, yeah
You gotta be in love with it, and fall for it
You can't put a piece in it, put all of it
You da MVP for it, and ball for it, yeah, yeah

'Cause I live for it, die for it
I'm willin' to fight for it and ride for it
You just gotta dive in it, your life in it, yeah, yeah
You gotta be in love with it, and fall for it
You can't put a piece in it, put all of it
You da MVP for it, and ball for it, yeah, yeah

Yeah

I got it out the mud, got it out the mud, yeah

Now they know whassup, now they know whassup, yeah

Got it out the mud, got it out the mud

So take us as we are, not as what we was

I got it out the mud, got it out the mud, yeah

Now they know whassup, now they know whassup, yeah

Got it out the mud, got it out the mud
