

Come On Ghost

Idlewild

The river was always right here
Servicing the mystery
The experience of feeling lonely
I'll only sit by the banks of the loneliest river
Where the loneliness don't flow
It cascades
And washes away any trouble and doubt
Trouble and doubt has a way
Of leading you back home
You can

Come on ghost give me back the key
Unlock the door
You're never gonna find me
I can see through you
You can see through me
So you can
Come on ghost give me back the key
Unlock the door
What's the point of hiding any more
Can't you see
Leave it to infinity

The river was always right here
A wilderness of wrought and power
Decaffeinated water
Drown in the town
It's the same old blood, the same baffling brink
An explosion in the sewer
The rats who pine for sunshine
Have found a new way to get it

So come on ghost give me back the key
Unlock the door
You're never gonna find me
I can see through you
You can see through me
So you can
Come on ghost give me back the key
Unlock the door
What's the point of hiding any more
Can't you see
Leave it to infinity
