

Finished It Remains

Idlewild

The night begins
in early moments
no easy moments
the three of us are sitting up till dawn
There are no outskirts
to New York City
If i'm leaving
leave me gone
I only ask you 'cos time won't tell you to
leave me gone
I only ask you when time tells you to stop
Stop, the daylight
coming past the ending
like a mixture of everyone in the world
We're all watching a film
shown on gravestones
of us leaving
And the journeys start
only as the journeys end
and finished it remains
and finished it remains
Leave me gone
I won't ask you if time won't tell you
to leave me gone
I won't ask you if time won't tell you
to leave me gone
