

Memories

If I Were You

Can you take away this pain that I've been holding onto?
I can't get out of this hole
These pictures and memories are all I have left
Why did you have to go?

I try, I try to get you out of my mind, but to no avail, you're
always there
Why can't I forget you?
I have to forget you!
I have to find a way
Sleepless nights, I know them all too well
And here alone, I think of you. (I think of you)

Can you take away this pain that I've been holding onto?
I can't get out of this hole
These pictures and memories are all I have left
Why did you have to go?

It wasn't enough to always be by your side
You always wanted what I couldn't give to you
So, fuck an apology now!
You left me stranded and broken here
Broken

Can you take away this pain that I've been holding onto?
I can't get out of this hole
These pictures and memories are all I have left
Why did you have to go?

Where have you gone?
I need you so bad
What have I done?
I need your voice
Take me away
So far away from here

Can you take away this pain that I've been holding onto?
I can't get out of this hole (out of this hole)
These pictures and memories are all I have left
Why did you have to go? (have to go)
