

Too Far Gone

If I Were You

I'm better off dead!

Do you know what its like to be me?
I'm walking this path so close and yet I feel nothing
Set me free
Release me from myself
There is no time to lose
I've got nothing left and I fear the worst
I fear myself
I fear my soul

Just cast them aside
Please pay no mind to the voices in my head
I think I'm better off dead!
Throw me to the wolves
I'm too far gone
Say it again, say it again!
I think I'm better off fucking dead

The darkness in my head is as dark as this cold night sky
So, get the fuck out of my way (of my way!)
How can I trust myself when I'm losing my fucking mind?
I'm losing control
This cant be real

Just cast them aside
Please pay no mind to the voices in my head
I think I'm better off dead!
Throw me to the wolves
I'm too far gone
Say it again, say it again!
I think I'm better off
I think I'm better off
I think I'm better off dead

I'm losing control
I'm losing my mind
This can't be real

To the ocean floor my soul sinks
I'm so scared to breathe and all I have is myself
Drifting endlessly, no one can save me now

Let go!
I'm too far gone
I'm too far gone
There's no way out
Just let go
I'm too far gone
I'm too far gone
There's no way out
Just fucking let go!
