

## Far Away

Ify Alyssa

It's happening all over again  
Two hearts being one  
But no place for each one  
Will it ever come to an end  
Even though I know I like the pain

We were friends but not again  
We are lovers not the same  
Would it be that simple?

I know where my eyes would lay  
And if my heart could say  
I love you from far away  
And it grows, and it grows each day

We were friends but not again  
We are lovers not the same  
Would it be that simple?

I know where my eyes would lay  
And if my heart could say  
I love you from far away  
And it grows, and it grows each day

I've been waiting, I'm still waiting  
Are you waiting, do you feel the same?  
If it never ends  
Please take me by the hand

I know where my eyes would lay  
And if my heart could say  
I love you from far away  
And it grows, and it grows each day  
And it grows, and it grows each day
