

Wind

Ify Alyssa

Searching for you across the sun
Follow me to sea and we'll run
High in the skies
Floating on clouds
Come here take my hand

Searching for you across the sun
Follow me to sea where we'll run
High in the skies
Floating on clouds
Will you come and sing with me?

I'll follow you through the crowd
Wherever you go
Wherever the wind blows
High up with you in your arms
Wherever you go
That's where i will be

High in the skies
Floating on clouds

High in the skies
Floating on clouds

High in the skies
Floating on clouds
Will you come and sing with me?

I'll follow you through the crowd
Wherever you go
Wherever the wind blows
High up with you in your arms
Wherever you go
That's where i will

I'll follow you through the crowd
Wherever you go
Wherever the wind blows
High up with you in your arms
Wherever you go
Wherever you go
Wherever you go
That's where i will be
