

# Don't Need Y'all

Iggy Azalea

I remember when it used to be simple  
But all this cash it just complicates things  
And all this money we into  
It will drive you crazy but it only makes me go harder  
Grow stronger and get tougher when the road get longer  
Sometimes you gonna think that it's too much on ya  
But think what I'd be doing if this wasn't going on  
So I just keep pushing when I'm being pulled in every direction  
Now I'm popping so the they watching every step of my progression  
Sometimes fame like a curse latched to my blessing  
On the road to the riches turning earth into heaven  
Dear Lord, if you hear me, I don't need not a new friend near me  
Cause I don't want none of that fake love  
Cause I'm looking and all of that be made up

I remember when I wasn't this big  
And now ya'll wanna act like ya'll helped me get here  
Oh now everybody wanna love me  
Try to knock me down but I'm strong  
I did all this on my own  
Ain't got no time for no new friends  
So for now just leave me alone

I don't need y'all anyway [x6]  
I don't need y'all

Making each and every song like it might be my last one  
But still making sure the cash come  
Still ain't forget the times when I didn't have none  
Back against the wall feeling like I had to grab some  
That's when, I took time and I figured it out  
I'd rather deal with the stress more than living without  
Take a one way trip to the top one time  
Let you have it for a minute now I want mine  
Same girl on the cover of the magazine  
Was the one hiding pain that you haven't seen  
Talking 'bout  
No money, no family  
Sixteen in the middle of Miami  
Same critics love me nowadays couldn't stand me  
Now we talking 'bout VMA's and a Grammy  
But in due time, turn nothing into something  
So now I need money, put it all in my discussions

I remember when I wasn't this big  
And now ya'll wanna act like ya'll helped me get here  
Oh now everybody wanna love me  
Try to knock me down but I'm strong  
I did all this on my own  
Ain't got no time for no new friends  
So for now just leave me alone

And if you wasn't here when I was down  
Then you won't be here when I'm up  
Now the same one you looked over  
Be the same one that blew up  
Ain't it funny how this life thing works

When you think it's finished is when it all begins  
Go from doubts to having the thought it might work  
It goes up and down then it starts again  
When I reminisce sometimes I can't even keep a dry eye  
But my how time flies by when you on top of the world sky high

I remember when I wasn't this big  
And now ya'll wanna act like ya'll helped me get here  
Oh now everybody wanna love me  
Try to knock me down but I'm strong  
I did all this on my own  
Ain't got no time for no new friends  
So for now just leave me alone
